### Description

Bright high quality example of the mid last century 1950-60's Yachting excellence, this Canoe Stern Yacht is a flagship by itself of what was yachting golden age in the French riviera. Built in 1969 and fitted with 2 original Gardener Engines totally rehauled in 2012 together with the rest of this Yacht for an extensive refit at the Feadship yard in 2012, to grant this unit its a true Pedigree but adding what's needed of modern technology to do not compromise comfort and safety onboard. With a capacity of eight guest accomodated in four state rooms, including a full beam Master ensuite with its own full head bathroom including a large bathtub and a separate shower, a the most central and comforable lower deck area, another full beam VIP ensuite at the center aft of the yacht with its own bathroom and shower, as well as two central portboard and starboard doubles cabins which can be convereted in two twins sharing a central bathroom. Surounded by a quiet and contemporary soft grey and walnut timeless interior, all guests will enjoy the truly unique cruising atmosphere at the fantastic economical speed of 10knots for a consumption of not more than 35 liters an hour, just as it was meant to be...

### Communication & Navigation Equipment

- Complete "Yacht control" NMEA 2000 system
- PC based system with back up computer in case of failure
- 48 mile KODEN radar
- Raymarine VHF
- Raymarine "smart" pilot with wireless remote control and constant running hydraulic pump
- Depht sounder
- Weather station
- Cmap based chart plotter
- NMEA software switches
- Twin daylight "touch" screens
- NMEA 2000 and IP based (CAT 5 cables) networks throughout the ship
- 2x handheld VHF's with Bluetooth headsets
- AIS class A

#### 25.81 M / 84'68"

- Central tv digital antenna system
- Underwater bow and stern camera, aft deck and forward-looking mast cameras
- Underwater LED lights at stern, side and bow
- Iridium satphone
- HP wireless printer/scanner
- On board wifi system
- Smart phone/tablet/PC/MAC wireless connection to allow remote monitoring and switching of most of the systems.
- Retractable dashboard
- EPIRB

#### **Mechanical Systems:**

- 2 x hot water boilers of 110 liters each
- In tank fitted Grundig rpm regulated freshwater pump
- 4 Hp 380 volts waste water pump
- Magnetic driven impeller centrifugal pumps for firefighting, bilge and water maker supply
- SEPAR fuel filters
- Fuel transfer pump with SEPAR filtering system
- Constant running 24 volts steering pump
- Main engine driven stabilizer hydraulic pump
- Holland Warmte diesel burner heater

**Electrical Systems:** 

- 12/24V DC
- 220/380 V AC 50 Hz

- 2x 24V engine starter gel batteries
  40x 200 amps ( total 8000 amps )
  24V service gel batteries
  3x 8Kw DC/AC Victron converters (total 24 Kw)

25.81 M / 84'68"

### **Recreational Equipment**

Storage:

Below the crew quarters is a large storage area. This space contains a large washing machine, heat pump silent drying machine, 3 separate 50 ltrs freezers, an additional 110 ltrs fridge and lots of storage space for food, drinks etc.

Tenders:

"Williams" jet tender and a "Yamaha" waverunner stowed on the foredeck. The jet tender allows to enter shallow waters and beaching due to the lack of a propeller and is therefore safe for swimmers too. The foredeck was designed to ensure that these tenders use the same center mounted deck crane, allowing (in most circumstances) to be launched while moored in port.
