## DESCRIPTION

---

The latest addition to the Pershing fleet. Nothing like anything seen before, thanks to the superstructure entirely in carbon fibre. Yet another huge leap forward for the new Pershing style, each of its parts designed to amaze, from its interior lines to its technological solutions, through to its performance. One of the most outstanding of its surprising innovations is that the access ladder into the flying bridge is completely built into the unmistakable Pershing wing, transforming the latter from an aesthetic trademark into a functional element, creating more space in the cockpit with a big-impact solution. Double motorisation guarantees 45 knots for the standard version and up to 48 knots for the optional version, for truly exciting performance.

## SPECIFICATIONS

## CERTIFICATION

<b>Category</b>	A
-----------------	---

## BUILDER / DESIGNER

<b>Builder</b>	Pershing	<b>Designer</b>	Fulvio de Simoni
<b>Naval Architect</b>	Pershing Yachts	<b>Hull Material</b>	Carbon Composite
