DESCRIPTION

One of the main new features and strengths of this open yacht aims precisely to benefit liveability: the new hard top, which has a clean, linear design that hides the technical and technological equipment from sight, as well as protecting and sheltering the central part of the yacht, including the dining area and the helm station on the main deck. Equally impressive is the sunroof with a two-way opening mechanism (forwards and backwards), which cannot fail to be a source of pleasure and wellbeing when cruising. The cockpit furnishings include two big sunpads, one in the form of a chaise-longue at the water's edge, and one that can be shaded, along with the dining area, by an automatic powered bimini system built into the hard top. The bow area too is best-of-breed in terms of concept and spaciousness, offering maximum freedom and relaxation to enjoy in company. The lower deck is laid out for maximum comfort, with three cabins sleeping six guests around a versatile and comfortable open space containing a galley and a dinette: a centrally-positioned master cabin, a double cabin with single beds on the port side, and a VIP cabin forward. Every cabin has its own bathroom.

SPECIFICATIONS

CERTIFICATION

Category A

BUILDER / DESIGNER

Builder Riva **Naval Architect** Riva Yachts

Model Riva 68' Diable Project

DIMENSIONS
