DESCRIPTION

Launched in La Spezia, the new Riva flybridge rethinks the concept of interior and exterior for an unprecedented yachting experience. La Spezia, 11 July 2023 – Creative genius never rests and Riva, a globally famed nautical icon, has been a perfect demonstration of this for over 180 years. A creative forge turning out iconic boats from 8 to 90 meters in length, every one unique but all sharing the signature aquamarine blue that makes them unmistakable, Riva once again shows its extraordinary creative vitality by launching Riva 82' Diva, the new flybridge built to open a new chapter in the history of the category. Launched in La Spezia, at the shipyard where 76-to-130-foot models are built, the Riva 82' Diva joins the sumptuous range of flybridges – including huge successes like the Riva 90' Argo, Riva 102' Corsaro Super, Riva 110' Dolcevitaa and Riva 130' Bellissima – bringing to market not only a new boat size but also a revolutionary approach to the use of space. Like the splendid creations that have preceded it in the last 27 years, Riva 82' Diva bears the unmistakable mark of Mauro Micheli and Sergio Beretta, founders of Officina Italiana Design, in collaboration with the Strategic Product Committee led by Piero Ferrari and the Ferretti Group Engineering Department.

SPECIFICATIONS
