## DESCRIPTION

---

wallywind110 project Wally is synonymous with the finest, fastest sailing yachts built in the modern era. The wallywind110 project takes the brand's renowned performance and styling and elevates it to the next level for a new generation of passionate sailors. Measuring 33.42m (109ft 8in) from sheer bow to open stern, the wallywind110 oozes power. The all-carbon hull has been painstakingly optimised by the pre-eminent racing naval architecture studio judel/vrolijk & co, with twin rudders and a choice of keel technologies. Carbon rig, flush decks and a low-profile coachroof only add to the impression of speed. And yet this is a hybrid yacht, in the sense that it makes a superlative bluewater cruiser as well. Easy to handle, manoeuvrable and safe with its high bulwarks, it makes quick work of ocean crossings. And once at anchor, those wide decks provide multiple entertaining and relaxing areas, from the aft deck and 80sqm guest cockpit to the foredeck lounge. Smart removable furniture can be quickly installed to host 15 people in high style. Accommodation is flexible and typically Wally. Light streams into the open-plan saloon through the dramatic overhead skylight, while the full-beam owner's cabin can be set up with walk-in wardrobes, a private lounge and his 'n hers bathroom. Then there are three further guest cabins and an office, plus room for 5 crew.

## SPECIFICATIONS

## RIG &amp; SAIL

<b>Total Sail Area</b>	53.88 m <sup>2</sup> / 580.00 sqft.
------------------------	-------------------------------------

## CERTIFICATION

<b>Certification</b>	RINA
