## LAYOUT / INTERIOR

---

The interiors are characterized by a fluid boho-luxe style and elegant use of curved lines, luxurious fabrics and organic shapes in muted tones. The luxury beach house-style grace of superyacht interiors is now homogenous with the ocean. Touches of artisans warps and wefts echo throughout the furniture and soft furnishings. Reclaimed wood provides rich textures, look out for the carved fish sculptures. Plants and shells are scattered around all three decks, reinforcing the yacht's intrinsic relationship with the natural elements. MIMI LA SARDINE is an interior design lover's haven.

The convenience of having gym equipment only forty paces away from the stateroom is ideal for giving you the motivation you need to get fit. Take advantage of the Nordic track SE7i Cross Trainer, weights. Alternatively, you could get out on the water and partake in an all-encompassing

activity. Use the water skis or a couple of the seabobs provided onboard and release your inner

child. Crashing around on one of the inflatable towables is a giggle.
