DESCRIPTION

wallypower58Xnew Building on the revolutionary wallypower58 platform, with its striking glass and carbon dome, the wallypower58X introduces a range of new features adapted for outboard propulsion. It is the first Wally yacht to be fitted with the new 600hp Mercury V12 Verado – or rather, a powerful configuration of four of them. With 2,400hp on the transom, the stable and efficient deep V-hull can reach an exhilarating 50 knots. And yet fuel consumption remains low, while the boat's additional tankage gives it a range of 300 nautical miles. Performance is therefore a given, but Wally has also exploited other capabilities offered by the new Mercurys. They have a reduced draft compared to other models, making the boat suitable for shallow water

SPECIFICATIONS

DIMENSIONS

Length 17.50 M / 57'42"**Beam** 5.00 M / 16'41"**Displacement** 22.00 tons

MACHINERY

Engine Maker Mercruiser**Number of Engines** 4**Propulsion Mode** Diesel**Engine(s) type** Off board**Engine(s) power** 600.00 hp**Engine(s) model** MERCURY VERADO V12 600 (OPT)

PERFORMANCES

Cruising Speed 42.00 knots**Max Speed** 50.00 knots**Cruising Speed for Range** 320.00 knots

TANKAGES

Fuel 4,200.00 liters / 1,108.80 US gals**Water** 450.00 liters / 118.80 US gals

17.50 M / 57'42"
